Grey Water Multi Media Filtration

from: EnviroTech Trading Limited

Price: £0.00
Date: 2019-11-17 01:10:01
Expiration Date: 0000-00-00 00:00:00

Description

UK Water Recycling Systems EnviroTech provide UK Water Recycling Systems for all types of Water Filtration, Water Reclamation, Greywater Recycling, and PreFiltration for Reverse Osmosis Plants, designed and manufactured in England, UK. Our headquarters are in Tunbridge Wells, UK and Masdar City, UAE with offices in Oman, Egypt and Saudi Arabia. EnviroTech have vast experience in saving water by Grey Water Recycling achieving the highest water quality levels possible. We can achieve the high quality filtration by installing our Multi Media Filtration Systems (MMF) which are ideal for Residential, Commercial and Industrial Sectors. As well as obtaining excellent LEED and Estidama Green Building efficiency ratings. Our UK Water Recycling Systems will save water by collecting and recycle the Grey Water or lightly contaminated Secondary Water and Treated Sewage Effluent (TSE) Water which can then recycled covering a wide range of industries such as the Oil and Gas sector, River Water and Brackish Water filtered for Irrigation Systems and Aquaculture. Also Laundry Water, Cleaning and Vehicle Washing as well as Manufacturing Process Water, Ballast Water and Produced Water. Some water recycling reference sites include:- Off Shore Oil Islands, Abu Dhabi Canary Wharf, London Intercontinental Hotel, Aman, Jordan Northwood MOD, London HQ in Manchester Lower Thames Street in London East Road in London Leisure Site in Yorkshire Hotel in Amman, Jordan Library in Brighton Governme
